Vulcan-System  
Mr. W.Kurt  
Probsteiholzweg 11  
4103 Bottmingen

Dear Mr. Kurt,

after a few months testing the Vulcan anti-scale system in our hygiene center in the station SBB of Basel, we are very happy with the results. The visible scale deposits are less and the cleaning is much easier than without Vulcan – with less need of chemicals. Also the scale depositis of the cisterns and shower heads are much less, so we have less maintenance costs. We recommend your Vulcan system and we will install more Vulcan systems in further of our sanitary stations in Switzerland.

With best regards

McClean AG

Raphael Zimmermann  
Managing director

Vulcan anti-scale system in the hygiene center of the station in Basel.
